ERICA Product Details

Roche KJ, P Crozier, S Plimpton, G Klimeck, M Luisier, S Steiger, W Mori, R Fonseca, SB Yabusaki, Y Fang, B Palmer, R Kendall, R Hartman-Baker, D Maxwell, B Messer, D Skinner, and V Paropkari. 2011. *FY 2011 US OMB PMM DOE SC OASCR Software Metric SC GG 3.1/2.5.2: Improve Computational Science Capabilities* . PNNL-24609, Pacific Northwest National Laboratory, Richland, WA.

Title:	**FY 2011 US OMB PMM DOE SC OASCR Software Metric SC GG 3.1/2.5.2: Improve Computational Science Capabilities**
Contributors (Name, Email, Institution)	Kenneth J Roche (BATTELLE (PACIFIC NW LAB)), Paul Crozier (Sandia National Laboratory), Steve Plimpton (Sandia National Laboratory), Gerhard Klimeck (Purdue University), Mathieu Luisier (Eidgenossische Technische Hochschule Zurich), Sebastian Steiger (Google Zurich), Warren Mori (University of California, Los Angeles), Ricardo Fonseca (Istanbul Technical University), Steven B Yabusaki (BATTELLE (PACIFIC NW LAB)), Yilin Fang (BATTELLE (PACIFIC NW LAB)), Bruce Palmer (PNNL), Ricky Kendall (Oak Ridge National Laboratory), Rebecca Hartman-Baker (Oak Ridge National Laboratory), Don Maxwell (Oak Ridge National Laboratory), Bronson Messer (Oak Ridge National Laboratory), David Skinner (Lawrence Berkeley National Laboratory) and Viraj Paropkari (Lawrence Berkeley National Laboratory)
Responsible Author:	Roche, Ken
Product Type:	Formal Report (Technical Report)
Description:	The report presents the problems and work conducted to satisfy the Department of Energy's (DOE) Office of Advanced Scientific Computing Reasearch (ASCR) program's FY11 software effectiveness measure, part of it's annual Office of Management and Budget (OMB) program goal entered into DOE's Performance Measure Manager (PMM) system at the end of the FY, for the following science and engineering applications: STOMP

	(a sub-suface modeling capability), LAMMPS (a molecular dynamics library), OMEN (a nano electronics simulator), and OSIRIS (a plasma based accelerator simulator).
Funding Source(s):	Project No: 58202 B&R No: KJ0402000 Project Title: Software Effectiveness Metrics Product Line: Physical and Computational Sciences
Limited Distribution:	No
OSTI Announcement:	No
Keywords:	metrics; software effectiveness; parallel computing; applied computer science; computational science
EMSL Use(s)	N/A
ARM User:	No
RPL User:	No
Comments:	The report was accepted October 26, 2011 at DOE headquarters.
Information Release Number:	PNNL-24609
Information Release Status List:	Published 10/26/2011, Cleared 08/25/2015,
Record Date:	08/25/2015
Last Submitted/Updated By:	Kubik, Michelle R

** N/A indicates the field was left blank

Environment: PRODUCTION
